

REMANUFACTURED & NEW UNITS

TRANSMISSIONS

General Truck Parts and Equipment is a supplier of manual and automatic transmissions and transfer case products, both remanufactured and new. We test all remanufactured transmissions on our state-the-art dynamometer. Our technicians are some of the best in the industry.

STEERING GEAR

General Truck Parts and Equipment is an authorized supplier and remanufacturer of steering gears. Our quality is second to none. We test all remanufactured steering gears.

DIFFERENTIALS

General Truck Parts and Equipment is the differential expert for on-highway, off-highway, industrial, agricultural, construction, mining and logging heavy duty trucks and equipment. General Truck Parts and Equipment also carries light and medium duty differentials and parts.
